# **Training Management**

The Intelex Training Management System enables you to schedule, track and report on employee training, licensing, certifications and qualification for individual employees, contractors or workgroups.

#### **Benefits**

#### Drive training completion

Email reminders are automatically generated for overdue and upcoming training so both supervisors and employees are aware of the status of training requirements.

#### Streamline training set-up

Set up an unlimited number of user groups based on job titles, departments or roles and avoid tedious individual entry by easily assigning a predefined library of courses for each.

### Centralize data collection and reporting

Access all of your training metrics in real-time from a secure, web-based platform.

## Ensure regulatory compliance

Avoid compliance related penalties and fines and exceed training management requirements for standards such as ISO 9001, ISO 14001, ISO 19011, and OHSAS 18001.

#### **Enable complete visibility into training** performance

View graphical scorecards and reports detailing training performance from a comprehensive management dashboard.

#### Access both new and historic training metrics

Past course information including legacy data can be easily imported into the system which makes implementation quick and reporting complete.

#### **Application Capabilities**

- ▶ Automatic scheduling of training based on job position, title, team, shift, or any other criteria to ensure consistency and save you time.
- ► Track training requirements and progress at multiple levels including: employee, job title, work group, department, division, facility, and location.
- ▶ Send automated alerts to employees required to complete training.
- > Send alerts for pending and overdue training requirements to employees and supervisors.
- ▶ Report on training costs by course, employee, job title, work group, division, location, year and more.
- > Streamline training management workflow, reducing duplication of employee efforts.

- ▶ Archive training histories for year-round internal and external audit preparedness.
- Meet ISO 9001, ISO 14001, ISO 19011, and OHSAS 18001 training management requirements.
